# Purchase Order Process

# A. Requisitions

1. General Guidelines

a. Acquisition of requested goods and services shall be made only by the issuance of an official, pre-numbered, District purchase order.

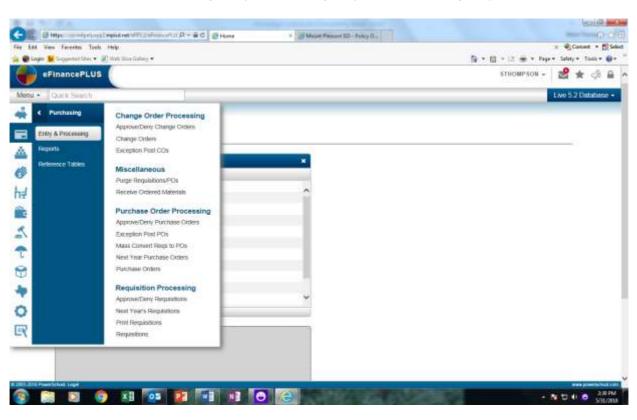

b. Any commitment to acquire goods or services from budgeted funds prior to securing a bona fide purchase order is prohibited. Anyone creating or authorizing such a commitment prior to securing a purchase order will be personally liable for payment of such agreement and/or may be liable to prosecution under the Texas Penal Code Chapter 39 Abuse of Office, Section 39.01.

c. The necessity to plan ahead for supply and service requirements cannot be overemphasized. The requisitions must travel from originator through approval channels to the Purchasing Department. The Purchasing Department then must competitively procure the items if necessary. The time required for processing will vary from few days to several weeks according to the nature and value of the transaction, the existing workload, and various legal requirements.

# **B.** Requisition Process

1. All requests for purchases shall be submitted as a requisition through the PowerSchool software's online purchasing system. The steps to complete a requisition in PowerSchool follow.

2. All Finance PowerSchool users have a user identification (ID) and password. These are assigned by the Technology Director. It is the responsibility of the user to secure their ID & password and to alert the Technology Director immediately if that security has been breached. Each user is then assigned rights in the PowerSchool system by the CFO (Chief Financial Officer). These rights determine what the user can and cannot do or see in the software. Users who are allowed to input requisitions may complete the following steps:

In PowerSchool, choose Purchasing/Entry & Processing/Requisition Processing/Requisitions.

*To input a new requisition, click + in the upper left hand corner.* 

First screen: Requisition number is pre-entered. Choose the proper approval group for your campus/department. Input date required and vendor. Check Add Attachment to add information to the requisition such as price quotes. Add notations regarding freight. Put the fax # in the comments box. If there is no fax, make a brief comment about the purchase. Buyer is the person inputting the requisition. Attention is who item or services will go to. Ship to is always 805. Click OK.

d. All arrangements for returning, adjusting, deleting, modifying or canceling items or conditions as listed on a purchase order that has gone out to a vendor must be made IN WRITING through the Purchasing Department. All arrangements and adjustments shall conform to the requirements of legal statutes and District policy.

7. Personal Purchases—District employees shall not be permitted to purchase supplies or equipment for personal use through the District's Business Office (CH Local). District employees shall not be permitted to use the District's tax exempt certificate to make personal purchases.

C. Federal & State Grants (refer to the MPISD Federal & State Grants Manual for more information)

1. Purchases from Federal & State grant funds will be in compliance with OMB Uniform Guidance 2 CFR Part 200.

2. Purchases of contracted services from Federal or State grant funds must be supported by an actual contract which will be kept on file in the Accounts Payable Office.

3. For all purchases from Federal or State grant funds, a line item must be added to the requisition that correlates the expenditure to the District and/or Campus Improvement Plan, grant requirement (reference schedule) or legal statute.

4. Purchases with grant funds must be made during the grant period in plenty of time to

impact student instruction.

5. Construction and renovation projects and subcontracts financed with funds awarded under the Head Start program are subject to the Davis-Bacon Act (40 U.S.C. 276a et seq.) and the Regulations of the Department of Labor, 29 CFR part 5. The District must receive an assurance that all laborers and mechanics employed by contractors or subcontractors in the construction or renovation of affected Head Start facilities shall be paid wages not less than those prevailing on similar construction in the locality, as determined by the Secretary of Labor.

6. 2 CFR Part 200.67 indicates for Federal programs that a micro-purchase means a purchase of supplies or services using simplified acquisition procedures, the aggregate of which does not exceed the current micro-purchase threshold of \$3500 or \$2000 if Davis-Bacon applies.

7. Approvals

a. Principals will approve the purchase with federal funds first if applicable. b. Grant administrators will be the second level of approval. Grant administrators are responsible for ensuring that the purchase is allowable under OMB Uniform Guidance 2 CFR Part 200.

c. Final approval will be by the Superintendent or delegee if necessary.

8. Invoices must contain sufficient, detailed evidence that it is an allowable cost for the program and signed by the approving supervisor.

# D. Purchase Orders

1. Approved requisitions will be assigned a purchase order number. Assignments are made at 8:00 a.m. each workday morning **only**.

2. Purchase orders will be forwarded to the Purchasing Coordinator. The Purchasing Coordinator will either fax/call in orders or forward the purchase order to the originator for use.

3. Distribution of the four-part order is as follows:

- Vendor
- MPISD Warehouse
- MPISD Accounts Payable
- MPISD Purchasing Department

4. The Purchasing Coordinator will <u>NOT</u> release purchase order numbers to cover charges in advance of these procedures.

5. Acquisition of goods and services shall be made ONLY by the issuance of an official, prenumbered, District purchase orders. Any commitment to acquire goods and services from budgeted funds prior to securing a purchase order is prohibited. Anyone creating or authorizing such a commitment prior to securing a purchase order will be personally liable for payment of such agreement and/or may be liable to prosecution under the Texas Penal Code Chapter 39 Abuse of Office, Section 39.01.

6. Open Purchase Orders

a. Open purchase orders will be issued ONLY upon approval of the CFO. Open purchase orders will be kept to an absolute minimum. Open purchase orders will be reviewed annually.

b. The purpose of an open purchase order is to eliminate the need for numerous individual purchase orders for small-dollar value items or services and provide a means of acquiring urgently needed items or services to make repairs ONLY.

c. User departments must return all signed invoices to the Accounts Payable Coordinator.

d. ONLY approved departments and users may use an open purchase order.

e. Open purchase orders will be valid for one calendar month only. A new purchase order number will be issued to vendors at the beginning of each calendar month by the Purchasing Coordinator.

E. Credit Cards: The District will *not* secure a generic credit card for supply and service purchases. Some local vendors such as Wal Mart, Lowes & Home Depot require the use of a company card for purchases. In this instance, a MPISD employee may check out a company card from the Accounts Payable Coordinator or their campus secretary after securing an approved purchase order. The employee will take the card and approved purchase order to the store, make the purchase and return the card and signed receipt to the Accounts Payable Office or campus secretary.

F. Online Purchasing: Since external vendor on-line purchasing generally does not have internal controls which include verification of available budgeted funds, use of on-line purchasing will be **prohibited**.

G. Reimbursements: Employees seeking reimbursement for expenses incurred out of pocket will submit detailed receipts to his/her supervisor requesting reimbursement of expenses. The supervisor or designee will then input a purchasing requisition in accordance with normal purchasing procedures. Itemized receipts must be submitted to the Accounts Payable Office with the approved purchase order. Employees may be reimbursed from grant funds any allowable expenditure under OMB Uniform Guidance 2 CFR Part 200. No reimbursement shall be made from grant funds without an approved purchase order and itemized receipts.

F. Warehouse Stock

1. Selected items are purchased as warehouse inventory through the competitive procurement process and stored at the warehouse for use. Items are warehoused to reduce many small volume purchases, permit quicker delivery and reduce cost by volume purchases.

2. Items to be placed in or deleted from warehouse stock will be determined by the CFO, Purchasing Coordinator and Warehouse Coordinator. Criteria will include frequency of use, shelf life, cost, available space, distribution capabilities, need of immediate use, and savings.

3. Items will be purchased in accordance with District, State & Federal policies.

4. Items available from the warehouse should be requisitioned before attempting to purchase individually from an approved vendor. Items from the warehouse are requisitioned through the PowerSchool system as follows:

Each user is then assigned rights in the PowerSchool system by the CFO. These rights determine what the user can and cannot do or see in the software. Campus secretaries have the ability to input requisitions and run reports. Supervisors have approval abilities. Only the central Business Office has the ability to post purchase orders.

# Warehouse: Delivery, Receipt & Inventories

Mount Pleasant ISD maintains a central warehouse that serves two purposes:

- 1. Receive and distribute purchased items
- 2. Maintain & distribute the District's stock of inventory items
- A. Receiving and distribution

1. Centralized receiving—MPISD utilizes centralized receiving to better facilitate control over purchases.

2. Receiving Procedures

a. The Warehouse receives a copy of the purchase order as notification of a pending delivery.

b. Upon delivery, Warehouse staff should:

i. Compare the packing slip to the purchase order to be sure the shipment belongs to MPISD. If it does not, refuse shipment.

ii. Ensure that the items on the packing slip match the items on the purchase order; accept the items ordered and have the Purchasing Coordinator contact the vendor for instructions for handling incorrect items.

iii. Compare the number of containers delivered to the number on the carrier's packing slip. Record any discrepancy on the carrier's shipping documents.

iv. Examine the outside of the containers for damage. Record any damage to the shipping containers on the carrier's shipping document and ensure that it is signed by the delivery person before the shipment is accepted. Recording damages to containers provides additional documentation in the event there is concealed damage.

v. FOB destination—All items shipped to MPISD should be shipped FOB destination so that the vendor retains title and control of goods until they are delivered. The vendor selects the carrier and is responsible for the risk during transportation. This also allows MPISD to reject or accept all or part of the shipment. In the event any or all is rejected, the reason for rejection must be noted on the carrier's shipping documents and the vendor must be notified via the Purchasing Coordinator.

vi. *If possible*, open the container(s) and compare the contents with the packing slip. If the warehouse staff are unable to open and compare, the receiving campus or department will open the container(s) and compare the contents with the packing slip. If the contents do not match, have the Purchasing Agent contact the vendor. If absolutely necessary, refuse shipment and note refusal on the carrier's shipping documents.

vii. Finally, accept delivery by signing & dating the packing slip.

c. Receiving report

i. Receiving reports for inventorial items should be prepared by Warehouse staff and forwarded to Purchasing Coordinator for input into the PowerSchool Warehouse module.

ii. Inspection: Receiving reports for all other goods should be prepared and signed by the receiving campus/department. Receiving campus/department should:

- Compare quantity received and quantity ordered
- Compare shipment with physical description on the purchase order

• Retain copies of all shipping documentation

iii. Invoice: Send signed copy of the invoice to Accounts Payable for processing only after inspection and completion of the order.

### d. Discrepancies

i. Vendor: Notify the vendor within 48 hours.

ii. Document: Note all correspondence with vendor in writing and follow-up all telephone notifications in writing.

iii. Purchasing: Contact the Purchasing Department (903)575-2000, ext. 1026 and send copies of all correspondence to the Purchasing Coordinator.

# B. Warehouse Inventory

1. Warehouse Stock Items

**a. Purchasing:** Items for warehouse inventory will be purchased according to the MPISD Purchasing Procedures set forth in the Purchase Order Process discussed earlier in this text.

**b. Receiving:** Stock items will be received in the same manner as discussed in Warehouse: Deliveries, Receipts & Inventories item A2. However, the Warehouse coordinator will be responsible for signing and forwarding the invoice to Accounts Payable.

**c. Receiving Report:** Once stock items are received, the Warehouse coordinator will prepare a report noting the items, stock number, and quantity received. The report will be forwarded to the Purchasing Coordinator.

**d. Receive Stock:** Once Accounts Payable pays the invoice, the Purchasing Coordinator will receive the stock into the PowerSchool Warehouse module with the current cost. PowerSchool will average the cost.

a. Performed once per year by Warehouse Staff.

b. The CFO will reconcile the physical inventory to the inventory

property records maintained in the accounting software.

c. Discrepancies will be investigated by CFO, Warehouse Coordinator & Purchasing Coordinator.

4. Obsolete/Unused /Damaged Inventory—Warehouse Coordinator will notify CFO of obsolete/unused/damaged inventory.

Since warehouse staff drives a District vehicle, they will also be randomly drug tested, obey all traffic laws and will maintain a current driver's license.

e. **Data Processing Security--** All Finance PowerSchool users have a user identification number (ID) and password. These are assigned by the Technology Director. It is the responsibility of the user to secure their ID & password and to alert the Technology Director immediately if that security has been breached. Each user is then assigned rights in the PowerSchool system by the CFO. These rights determine what the user can and cannot do or see in the software.
