

*Mt. Pleasant ISD
Child Development Center
Parent Family Community Engagement Goals*

GOAL 1: Parents and Families will develop skills and knowledge to be safe, healthy, and increase financial security.

Objectives:

- Parents will build relationships with CDC staff and Community Partners
- Parents will recognize the benefits of educational trainings and resources

GOAL 2: Parents will learn the importance of positive parent and child interactions with the purpose of enhancing their awareness of child development.

Objectives:

- Parents will gain parenting skills from Conscious Discipline training
- Fathers will gain an understanding of their importance in the development of their child
- Parents will gain knowledge of social emotional and cognitive development

GOAL 3: Parents will gain the knowledge and understanding of the importance in being active participants in their child's education.

Objectives:

- Parents will partner with the teacher to support their child's education goals
- Parents will learn skills and age appropriate activities to implement at home

GOAL 4: Families will advance their own learning through the support of CDC who will use community partners to assist parent's in furthering their educational goals.

Objectives:

- Parents will build relationships with CDC staff and Community Partners*
- Parents will recognize the benefits of educational opportunities*

GOAL 5: Parents and Families will support and advocate for their child's learning and development as they transition to a new environment.

Objectives:

- Parents will gain knowledge in participating the Open House, Home Visits, Parent Conferences, Kindergarten Round Up, and/or parent meetings to transition successfully
- Parents actively participate in ARD meetings or parent conferences where the child's education plan is developed and reviewed

GOAL 6: Parents and Families will form connections with peers and mentors by volunteering in the program, utilizing community resources and participating in parent group settings.

Objectives:

- Parents will gain a sense of empowerment by participating in group experiences including trainings and volunteering
- Parents will participate in Home Visits and Parent Conferences where CDC staff will explore families interest and goals

GOAL 7: Families will develop a strong sense of advocacy and gain leadership skills by actively participating in program governance.

Objectives:

- Parents learn about opportunities to engage in leadership roles
- Parents develop leadership skills by participating in Policy Council, serving on committees, and attending trainings
