Mt. Pleasant Independent School District Annual Financial

Introduction

During the 77th regular session of the Texas legislature (2001), Senate Bill 218 was passed and Governor Perry signed it into law shortly thereafter. This law requires each school district to prepare an annual financial accountability report that explains the district's performance under each of the indicators included the School FIRST rating system. The District's final rating, included in this report, was released on August 7, 2023.

Many business-related issues are covered in this report. The primary reporting tool, however, is the Financial Accountability Ratings Worksheet. This worksheet was developed by representatives of the Texas Education Agency (TEA), the Texas Business & Education Council (TBEC) and the Texas Association of School Business Officials (TASBO). It will be administered by TEA and calculated on information submitted to the Agency via our PEIMS submission each year. PEIMS data has always been critical on the student side of the submission, and this project adds a great degree of importance to our finance submission each year.

The 2021-2022 worksheet consists of 20 criteria; each assigned a point value with the exception of the Critical Indicators. A "No" response in criteria #1, #2, #3 or #4 automatically result in a rating of Substandard Achievement, so these first four criteria are of utmost importance.

Currently, Mt. Pleasant ISD was given a rating of "A-Superior Achievement", scoring a 96 out of a possible 100 points on the financial accountability worksheet. The worksheet itself, a discussion of its salient points follows.

The school district receives an **F** if it scores below the minimum passing score, if it failed any critical indicator 1, 2, 3, or 4, if the AFR or the data were not both complete, or if either the AFR or the data were not submitted on time for FIRST analysis.

commissioner under TEC 13.054, or consolidation under Subchapter H, Chapter 41. No rating will be issued for the school district receiving territory until the third year after the annexation/consolidation.

CEILING INDICATORS

Response to indicator is No.

Did the school district meet the criteria for any of the following **ceiling indicators** 4, 6, 16, 17, or 20? If so, the school district's applicable maximum points and rating are disclosed below. Please note, an F = Substandard Achievement Rating supersedes any rating earned as the result of the school district meeting the criteria of a ceiling indicator.

Overview of the Worksheet

Critical Indicators

Criteria #1 through #6 are the critical indicators. Any "NO" response in this category is a signal indicator of fiscal distress. These six criteria revolve around the audit report, auditor's findings, timely payments on debt and obligations to government agencies and the average change in fund balances over three years. The auditors issued an unmodified opinion on the financial report, which was filed timely with the Texas Education Agency (TEA). The audit stated the district complied with the payment terms of all debt agreements. In addition, the district made timely payments to all government agencies including the Teacher Retirement System, Internal Revenue Service and Texas Workforce Commission. The District did not have a fund balance decrease and the current year's fund balances exceeded 75 days of operational expenditures, therefore, the District passed indicator #6. Indicator #5 was not scored by TEA in 2021-2022 due to accounting changes implemented by GASB.

Indicators 7-20

Score: 96

To receive the maximum points under indicator #7, the district must have greater than 90 days of cash and investments on hand to cover operating expenditures. The district had 210 days. A current asset to current liabilities ratio to cover short-term debt of greater than 3 was required to receive ten points under indicator #8. The district's ratio was 4.2714. The district's general fund revenues exceeded expenditures in indicator #9 and its number of days of cash on hand exceeded 60. Therefore, ten points were awarded. Indicator #10 was not scored by TEA for 2021-2022. Indicator #11 asks if the ratio of long-term liabilities to total assets was sufficient to support long-term solvency. Historically, the District has not been awarded the highest number of points on indicators addressing debt. Only eight points were awarded out of a possible ten on this indicator because the ratio had to be less than .60 and MPISD's ratio was .6139. Likewise, only eight of ten points were awarded on indicator #12 because the ratio of debt per \$100 assessed property value was 4.9775 instead of the TEA range of less than 4. The administrative cost ratio referred to in item #13 is .0538, which is well below the maximum of .10 for districts our size. Item #14 and #15 were not evaluated by TEA. Indicator #16 compares the Public Education Information Management System (PEIMS) data to like information in the school district's Annual Financial Report (AFR). The District had zero variances. As required by indicator #17 and #18, the external independent auditor reported that the AFR was free of any instance(s) of material weaknesses in internal controls over financial reporting and compliance for local, state, and federal funds, grants, contracts, and laws related to local, state, and federal funds. The District posted all required information on its website in accordance with Government Code, Local Government Code, TEC, TAC and other statutes, laws and rules earning five points on indicator #19. Finally, the district passed indicator #20 because the school board members discussed the district's property values at a board meeting within 120 days before the budget was adopted. Ninety-six points were awarded overall for the district's performance on these indicators.

Summary

The Mt. Pleasant ISD School Board, administration and the community have worked hard to maintain the financial position and condition of the District. This report demonstrates good stewardship to all concerned.
