Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Mount Pleasant Independent School District as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and net pension liability and contributions to TRS and net OPEB liability and contributions to OPEB on pages 4-12 and 55-62 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining and individual non-major fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The Texas Education Agency requires school districts to include certain information in the Annual Financial and Compliance Report in conformity with laws and regulations of the State of Texas. The information is in Exhibits identified in the Table of Contents as J-1, J-2, J-3 and J-4. These schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the MOUNT PLEASANT Independent School District we offer readers of the MOUNT PLEASANT Independent School District's financial statements this narrative overview and analysis of the financial activities of the MOUNT PLEASANT Independent School District for the year ended August 31, 2023. The information presented here should be read in conjunction with the District's financial statements.

FINANCIAL HIGHLIGHTS

The District's total combined net position was \$17.8 million at August 31, 2023 after recording the net effects of the OPEB liability required by GASB 75 and the net pension liability. During the year, the District's total revenues exceeded expenses by \$7.66 million. The adjustment for the change to the OPEB liability and the pension liability including deferred outflows and inflows that effected the current year increased net position by \$1.07 million compared to a \$1.85 million increase the prior year. Total expenses of the District were \$77 million for the year. Revenues were \$85 million, which was an increase of \$9 million or 11%. Tax revenue increased \$1 million or 5% as taxable values increased. Operating grants and contributions increased \$6.2 million. Federal grant revenue was up \$2.8 million. The proportionate share of revenue from the proportionate share of Pension and OPEB increased \$3.5 million. The increase for expenses was \$5.3 million or 7.5%. In adjusting the pension and OPEB liabilities, the District's proportionate share of the state's share of pension and OPEB expenses increased approximately \$3.5 million over the prior year, as the revenue did. Salaries increased \$1.5 million or about 3.7%. Various supply costs increased as well.

The District reported unassigned fund balance in the general fund of \$20.7 million at August 31, 2023, which is an increase of \$393 thousand. Fund balance of \$1.6 million was committed for construction. An additional \$ 625 thousand was added to the fund balance restricted for retirement of debt in the general fund making the balance \$5.7 million. Revenues increased \$2.37 million in the general fund. Property tax revenue was more than the prior year by \$600 thousand. Interest income increased \$787 thousand. Federal revenue increased \$852 thousand from indirect cost revenue from ESSER funds. Total General Fund expenditures were \$55.5 million which was down \$487 thousand from the prior year. Construction costs paid by the general fund were less.

Approximately 97.5% of the taxes levied for 2022-2023 were collected by fiscal year.

Under accounting standards as per GASB 68 that began in 2015, the District's portion of the net position liability has been recorded in the government-wide statements. The District's portion of this liability and the related deferred outflow and inflow is a net liability of \$12 million.

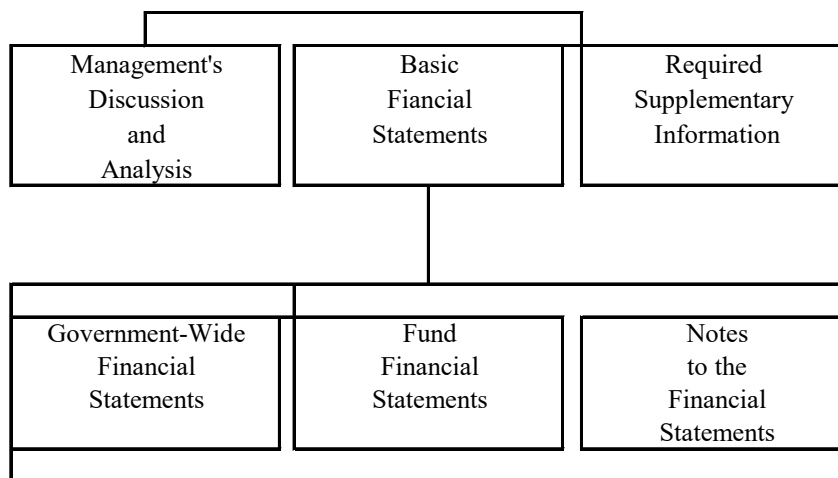

Under accounting standards as per GASB 75, which began in 2018 the District's portion of the net OPEB liability for TRS Care has been recorded in the government-wide statements. The District's portion of this liability and the related deferred outflow and inflow is a net liability of \$24.6 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts--*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.
 - The *governmental funds* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.
 - *Proprietary fund* statements offer *short-* and *long-term* financial information about the activities the government operates *like businesses*, such as a snack bar or after school child care program.
 - *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *custodian* for the benefit of others, to whom the resources in question belong.

Figure A-1. Required Components of the District's Annual Financial Report

Summary ⇌ Detail

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, consideration should be given to additional non-financial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration. Property taxes and grants finance most of these activities. Also included are business-type activities. The District charges a fee to "customers" to help cover the costs of services provided.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant *funds*-not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has three kinds of funds:

- *Governmental funds*-Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided that explains the relationship (or differences) between them.
- *Proprietary funds*-Services for which the District charges customers a fee are generally reported in enterprise funds. Enterprise funds, like the government-wide statements, provide both long-term and short-term financial information. *Internal service funds* are used to report activities that provide supplies and services for the District's other programs and activities-such as the District's Self Insurance Fund for worker's compensation.
- *Fiduciary funds*-The District is the custodian, or *fiduciary*, for certain funds. It is also responsible for other assets that-because of a trust arrangement-can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net position. The District's combined net position increased \$7.66 million over the prior year.

Net investment in capital assets reflects the book value of the District's capital assets in excess of the debt which financed those assets. Including the District's net pension liability and the OPEB liability net of the related deferred outflows/inflows decreased net position by \$12 million and \$24.6 million respectively.

The \$10 million is restricted as follows:

Restricted for food service	1,346		
Restricted for debt service	8,374		
Restricted for other purposes	290		
	<u>10,010</u>		

Net position of the District's governmental activities increased \$7.66 million. The increase was the result of these main factors. First, the District's expenditures exceeded revenues by \$3 million because of construction costs of \$5.4 million. Second, the District recorded depreciation of \$6 million. Third, an increase of \$664 thousand to net pension liability net of the related deferred inflow/outflow and a decrease to OPEB liability net of related deferred inflows/outflows of \$1.7 million have been recorded. The District added \$12 million of new fixed assets. Most was from construction paid out of bond proceeds received the previous year. \$3 million was paid in debt principal.

Changes in net position.

The District's total revenues were \$85 million. 24% of this comes from taxes, 40% was from state aid formula grants and 31% came from operating grants and contributions.

The total cost of all programs was \$77.6 million. Approximately 73% of this was for instructional and student services.

Net position increased by \$7.67 million from the excess of revenues over expenses.

Table A-3 presents the cost of each of the District's largest functions as well as each function's *net cost* (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all *governmental* activities this year was \$77.6 million.
- However, the amount that taxpayers paid for these activities through property taxes was only \$20.4 million.
- Some of the cost was paid by those who directly benefited from the programs (\$3.3 million), or by grants and contributions (\$25.6 million).

Table A-3

Debt Service-Interest & Fiscal Charges	2,279	2,406	2,279	2,406

The increase to instructional costs is mainly because of the increase in the proportionate share of the state's share of pension and OPEB expenses. The decrease to net cost of plant maintenance and operations is because of the funding provided by ESSER funds.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District reported fund balance in its governmental funds of approximately \$32.5 million reflecting a net decrease of \$3 million. The general fund balance decreased \$309 thousand. Reasons for the change are explained above on page 4. The food service fund balance decreased by \$90 thousand to a balance of \$1.34 million. Supply costs increased and also new fixed assets were acquired. The debt service fund balance increased by \$442 thousand to a balance of \$2.64 million at August 31, 2023. The remaining decrease is in the capital projects fund as \$3.11 million of bond proceeds received in a prior year was spent on construction this year as these projects are complete and all bond proceeds have been spent.

General Fund Budgetary Highlights

Some budget amendments were made during the year. Actual revenue was less than budgeted revenue by \$405 thousand mainly because federal revenue was less than budgeted. Expenditures were \$55.5 million or \$81 thousand less than budgeted. The actual net decrease in fund balance was \$309 thousand more than had been budgeted because of the above items.

\$3 million was paid on principal this year. No new debt was issued this year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The 2022-2023 school year ended with success although total enrollment remained around 200 fewer students than in pre-COVID years. The District was able to reduce the tax rate, give raises and complete many projects including bus and other equipment purchases and various renovation projects and still only decrease total fund balance by a nominal amount.

The District continued to spend the remaining funds awarded from two federal grants in response to the pandemic. ESSER II & III funds were awarded beginning in the 2019-2020 school year. ESSER II funds were spent to update HVAC systems. Two-thirds of the ESSER III funds have been spent on technology, nursing, counseling and teacher retention as a response to the pandemic. The remaining funds are budgeted to be spent in the same manner by August 2024. As well, the district received and either spent or continues to spend federal funds for Homeless, HeadStart, Special Education and School Health awarded in 22-23.

The construction approved in the 2019 bond issue was completed and the remaining renovations to the High School auditorium were completed as well.

The 2023-2024 school year began smoothly. Enrollment basically stayed the same as it was at the end of 22-23. The Board adopted a balanced budget and dropped the tax rate by \$.264 while giving employees a 4% raise. Approximately \$1.6M will be committed from fund balance in 23-24 for phase II of the wireless project not funded by Erate and the HVAC replacements at the Willie Williams gym.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
AUGUST 31, 2023

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$	32,499,579
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$187,284,343 and the accumulated depreciation was (\$80,949,596). The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to decrease net position. Note: Beginning Balances related to TRS are NOT included in this amount.		10,761,328
2 The 2023 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.		(5,997,226)
3 Current year capital outlays and debt principal are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the 2023 capital outlays and debt principal payments is to decrease net position.		15,146,565
4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. At the beginning of the year, the net position related to TRS was a Deferred Resource Outflow in the amount of \$4,907,395, a Deferred Resource Inflow in the amount of \$8,687,592, and a net pension liability in the amount of \$7,586,733. The impact of this on Net Position is \$(11,366,930). Changes in the plan reported by TRS for this measurement period resulted in a decrease in net position in the amount of \$664,130. The combination of the beginning of the year amounts and the changes during the year resulted in a difference between the ending fund balance and the ending net position in the amount of \$(12,031,060).		(12,031,060)
5 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. At the beginning of the year, the net position related to the OPEB liability was a Deferred Resource Outflow in the amount of \$3,803,215, a Deferred Resource Inflow in the amount of \$13,050,154 and a net OPEB liability in the amount of \$17,071,474. The impact of this on Net Position is \$(26,318,413). Changes in the OPEB reported by TRS for this measurement period resulted in an increase in net position in the amount of \$1,737,296. The combination of the beginning of the year amounts and the changes during the year resulted in a difference between the ending fund balance and the ending net position in the amount of \$(24,581,117).		(24,581,117)
6 The District uses internal service funds to charge the costs of certain activities, such as self-insurance to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.		778,370
7 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.		1,202,201

 AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED AUGUST 31, 2023

EXHIBIT C-4

Total Net Change in Fund Balances - Governmental Funds	\$ (3,059,612)
The District uses internal service funds to charge the costs of certain activities, such as self-insurance to appropriate functions in other funds. The net income (loss) of internal service funds are reported with governmental activities. The net effect of this consolidation is to increase net position.	(196,224)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the 2023 capital outlays and debt principal payments is to increase net position.	15,146,565
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(5,997,226)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.	695,281
Current year changes due to GASB 68 resulted in a net effect on the change in the ending net position as a decrease in the amount of \$664,130	(664,130)
Current year changes due to GASB 75 resulted in a net effect on the change in the ending net position as an increase in the amount of \$1,737,296.	1,737,296

MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED AUGUST 31, 2023

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in *Statement on Auditing Standards No. 69* of the American Institute of Certified Public Accountants; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

Pensions. The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits. The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT applies Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements. The District's investments are accounted for using the cost amortization method.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units related to the District.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT and its component unit's non-fiduciary activities with most of the inter-fund activities removed. *Governmental activities* include programs supported primarily by taxes, State foundation funds, grants and other intergovernmental revenues. Business type activities include operations that rely to a significant extent on fees and charges for support.

The Texas Education Agency's Commissioner of Education ordered the closure of Winfield Independent School District (Winfield ISD) effective July 1, 2018. At that date, the District was annexed by Mount Pleasant Independent School District.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. Direct costs are those that are clearly identifiable with a specific function. Program revenues of the District include charges for services and operating grants and contributions. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due froms on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All interfund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Interfund activities between governmental funds and enterprise funds remain on the government-wide statements and appear on the government-wide Statement of Net Position as internal balances and on the Statement of Activities as interfund transfers. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are non-operating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are non-operating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

D. FUND ACCOUNTING

The District's accounts are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which are comprised of each funds assets, liabilities, equity, revenues and expenditures.

The District reports the following major governmental funds:

1. **The General Fund** – The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Capital Projects Fund** – The proceeds from long-term debt financing and revenue and expenditures related to authorized construction and other capital asset acquisitions are accounted for in a capital projects fund.

Additionally, the District reports the following fund type(s):

Governmental Funds:

1. **Special Revenue Funds** – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund, and sometimes unused balances must be returned to the grantor at the close of specified project periods.
2. **Debt Service Funds** -- The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

Proprietary Funds:

1. **Enterprise Funds** -- The District's activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities are accounted for in an enterprise fund. The District's non-major Enterprise Funds are an after school program and concession stand operations.

2. **Internal Service Funds** - Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The District's Internal Service Funds are a self-funded worker's compensation fund, a print shop operation, and a section 125 benefit program.

Fiduciary Funds:

1. **Custodial Fund** - The District accounts for resources held for others in a custodial capacity in custodial funds. These funds are used to account for assets held by the District as an agent for student and other organizations. These funds were previously reported in an agency fund. This change resulted in reporting the detail of additions to and deductions from custodial funds causing a change in the fund net position whereas these details were not reported for agency funds. This change is a result of the implementation of GASB 84. The District's Custodial Fund is made up of student group funds.

E. OTHER ACCOUNTING POLICIES

1. For purposes of the statement of cash flows for proprietary funds, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
2. The District reports inventories of supplies at weighted average cost including consumable maintenance, instructional, office, athletic, and transportation items. Supplies are recorded as expenditures when they are consumed. Inventories of food commodities are recorded at market values supplied by the United States Department of Agriculture (USDA). Although commodities are received at no cost, their fair market value is supplied by the USDA. When requisitioned, inventory and deferred revenue are relieved, expenditures are charged, and revenue is recognized for an equal
3. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

4. Capital assets, which include land, buildings, furniture and equipment are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50
Building Improvements	20-50
Vehicles	10
Office Equipment	10
Computer Equipment	10

5. Investments are carried at fair value.
6. Since Internal Service Funds support the operations of governmental funds, they are consolidated with the governmental funds in the government-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the District as a whole.
7. Some cash and investments are restricted for future debt payments.
8. The District has a self-insurance fund for worker's compensation insurance.
9. In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Commitments of fund balance represent tentative management plans that are subject to change.
10. When the District incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first whenever they will have to be returned if they are not used.
11. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to insure accuracy in building a State-wide data base for policy development and funding plans.
12. School Districts are required to report all expenses by function, except certain indirect expenses. General administration and data processing service functions (data control codes 41 and 53, respectively) include expenses that are indirect expenses of other functions. These indirect expenses are not allocated to other functions.
13. Deferred Outflows/Inflows of Resources—The District implemented GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and GASB Statement No. 65, Items Previously Reported as Assets and Liabilities for the year ended August 31, 2013. The District implemented GASB Statement No. 68 Accounting and Financial Reporting for Pensions for the year ended August 31, 2015. The District implemented GASB Statement No. 75 Accounting and Financial Reporting for Other Post-Employment Benefits for the year ended August 31, 2018. In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three types of items that qualify for reporting in this category, deferred charge for refunding bonded indebtedness and deferred outflows related to TRS as per GASB 68 related to pension accounting, and related to TRS OPEB related to TRS Care. These will be recognized as an outflow of resources in the subsequent years as they are amortized.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items that qualify for reporting in this category, property taxes and deferred inflows related to TRS, and related to TRS Care. These amounts will be recognized as an inflow of resources in the subsequent years as collected.

14. Fund balance measures the net financial resources available to finance expenditures of future periods.

The District's Unassigned General Fund Balance will be maintained to provide the District with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The Unassigned General Fund balance may only be appropriated by resolution of the Board of Trustees.

Fund balance of the District may be committed for a specific source by formal action of the Mount Pleasant ISD Board of Trustees. Amendments or modifications of the committed fund balance must also be approved by formal action of the Mount Pleasant ISD Board of Trustees.

When it is appropriate for fund balance to be assigned, the Board delegates authority to the Superintendent and Chief Financial Officer.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

<u>Capital Assets at the Beginning of the year</u>	<u>Historic Cost</u>	<u>Accumulated Depreciation</u>	<u>Net Value at the Beginning of the Year</u>	<u>Change in Net Position</u>
Land	1,867,685	-	1,867,685	
Buildings	160,055,504	(67,268,698)	92,786,806	
Furniture & Equipment	24,537,565	(13,680,898)	10,856,667	
Construction in progress	823,589	-	823,589	
Change in Net Assets	<u>187,284,343</u>	<u>(80,949,596)</u>		<u>106,334,747</u>
<u>Long-term Liabilities at the Beginning of the year</u>			<u>Payable at the Beginning of the Year</u>	
Bonds Payable			66,980,000	
Loans Payable			19,845,000	
Unamortized Premium/Discount			<u>8,748,419</u>	
Change in Net Position				<u>95,573,419</u>
Net Adjustment to Net Position				<u><u>10,761,328</u></u>

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Exhibit C-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position. The details of this adjustment are as follows:

	<u>Amount</u>	<u>Adjustments to Changes in Net Position</u>	<u>Adjustments to Position</u>
<u>Current year Capital Outlay</u>			
Buildings & Improvements	4,187,717	4,187,717	4,187,717

Construction in Progress		-	-
	<u>12,086,565</u>	<u>12,086,565</u>	<u>12,086,565</u>
Total Capital Outlay	12,086,565	12,086,565	12,086,565

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Food Service Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds if they are considered major funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit C-5 and the other two reports are in Exhibit J-2 and J-3.

The following procedures are followed in establishing the budgetary data reflected in the general-purpose financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. However, none of these were significant.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end. A reconciliation of fund balances for both appropriated budget and non-appropriated budget special revenue funds is as follows:

	August 31, 2023
	<u>Fund Balance</u>
Appropriated Budget Funds - Food Service Special Revenue Fund	1,346,495
Nonappropriated Budget Funds	<u>290,173</u>
All Special Revenue Funds	<u><u>1,636,668</u></u>

IV. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

District Policies and Legal and Contractual Provisions Governing Deposits

Custodial Credit Risk for Deposits State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the district complies with this law, it has no custodial credit risk for deposits.

Foreign Currency Risk The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by not allowing foreign currency investments.

As of August 31, 2023, the following are the District's cash and cash equivalents with respective maturities and credit rating:

Type of Deposit	Fair Value	Percent	Maturity in Less than 1 year	Maturity in 1-10 Years	Maturity in Over 10 Years	Credit Rating
Cash, Money Markets and FDIC Insured Accounts	14,400,611	100.00%	14,400,611	-	-	N/A
Total Cash and Cash Equivalents	\$ 14,400,611	100.00%	\$ 14,400,611	\$ -	\$ -	

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a. Depository: Guaranty Bank and Trust
- b. The market value of securities pledged as of the date of the highest combined balance on deposit was \$9,247,698.
- c. The highest combined balances of cash, savings, and time deposit accounts amounted to \$8,836,031 and occurred during the month of December, 2022.
- d. Total amount of FDIC coverage at the time of the highest combined balance was \$250,000.

Investments

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas public Funds Investment Act in an amount equal to the bond proceeds. The Act also requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT is in substantial compliance with the requirements of the Act and with local policies.

Additional policies and contractual provisions governing investments for MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT are specified below:

Credit Risk To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments in commercial paper, corporate bonds, mutual bond funds to the top ratings issued by nationally recognized statistical rating organizations (NRSROs). As of August 31, 2023, the district's investments in commercial paper were rated, AAaf/SI+ and AAAm by Standard & Poor's.

Custodial Credit Risk for Investments To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the district and hand them over to the District or its designated agent. This includes securities in securities lending transactions. All of the securities are in the District's name and held by the District or its agent.

Concentration of Credit Risk To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District limits investments to less than 5% of its total investments. The District further limits investments in a single issuer when they would cause investment risks to be significantly greater in the governmental and business-type activities, individual major funds, aggregate non-major funds and fiduciary fund types than they are in the primary government. Usually this limitation is 20%.

Interest Rate Risk To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires all of the investment portfolio to have maturities of less than one year.

Foreign Currency Risk for Investments The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment by not allowing foreign investments.

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

In this discussion and in the table below, investments are defined according to GASB 72 as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has a present service capacity based solely on its ability to generate cash or to be sold to generate cash. An asset initially reported as a capital asset and later held for sale would not subsequently be reclassified as an investment.

As of August 31, 2023, MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT had the following investments subject to the fair value measurement.

Investment by Fair Value Level	Balance at August 31, 2023	Fair Value Measurements Using Quoted Prices in			Credit Rating
		Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Debt Securities:					
U.S. Treasury Securities	807,138	1,052,917	-	-	AAAm
Repurchase Agreement	201,785	263,229	-	-	AAAm
Commercial Paper	19,169,531	-	19,169,531	-	AAAm
Total Debt Securities	20,178,454	1,316,146	19,169,531	-	
Total	20,178,454	1,316,146	19,169,531	-	

The above securities have a maturity of less than one year. Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT has no investments measured at the Net Asset Value (NAV) per Share. The fair value of the commercial paper at August 31, 2023 was determined primarily based on level 2 inputs. The District estimates the fair value of these investments using other inputs such as interest rates and yield curves that are observable at commonly quoted intervals. This is acquired through the investment pool mix.

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

During the year ended August 31, 2023 employees of the District were covered by the District's workers' compensation self-insurance plan as authorized by Section 504.011 of the Labor Code. Claims are paid by a third party administrator acting on behalf of the District under the terms of a contractual agreement. Administrative fees are included within the provisions of that agreement. According to state statute, the District is protected against unanticipated catastrophic claims and aggregate loss by coverage carried through Blue Cross Blue Shield, a commercial insurer licensed or eligible to do business in Texas. Coverage was unlimited.

The costs associated with these self-insurance plans are reported as inter-fund transactions to the extent of amount actually determined. Accordingly, they are treated as operating revenues of the Internal Service Funds and operating expenditures of the General and Special Revenue Funds. The liabilities of these plans include incurred but not reported claims.

Changes in the balances of the claim liabilities during the past year for the workers' compensation plan are as follows:

	Year Ended August 31, 2023	Year Ended August 31, 2022
Unpaid claims, beginning of the year	168,783	160,466
Incurred claims (including IBNR'S)	18,618	27,494
Claim Payments	<u>(14,843)</u>	<u>(19,177)</u>
Unpaid claims, end of fiscal year	<u>172,558</u>	<u>168,783</u>

J. DEFINED BENEFIT PENSION PLAN

Plan Description. MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Board of Trustees of the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS provides retirement, disability, and death benefits. Membership in the plan includes all employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempt from membership under Texas Government Code, Title 8, Section 822.002. The pension benefits are established or amended under the authority of the Texas Constitution, Article XVI, Section 67 and by the Legislature in the Texas Government Code, Title 8, Subtitle C. The Board of Trustees does not have the authority to establish or amend benefits.

State law requires the plan to be actuarially sound in order for the Legislature to consider a benefit enhancement, such as supplemental payment to the retirees. The pension became actuarially sound in May 2019 when the 86th Texas Legislature approved the TRS Pension Reform Bill (SB12) that provided gradual contribution increases from the state, participating employers, and active employees for the fiscal years 2019 through 2024.

Contributions. Contribution requirements are established or amended pursuant to the following state laws:

- . Article 16, Section 67 of the Texas Constitution requires the Texas Legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the System during the fiscal year.
- . Texas Government Code Section 821.006 prohibits benefit improvements if it increases the amortization period of TRS' unfunded actuarial liability to greater than 31 years or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the plan during the fiscal year reduced by the employer contributions. Employers (including public schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code
- During a new member's first 90 days of employment
- When any part or all of an employee's salary is paid by federal funding sources or a privately sponsored source.

In addition to the employer contributions listed above, employers are required to pay surcharges in the following cases:

- All public schools, charter schools and regional education service centers must contribute 1.7 percent of the member's salary beginning in fiscal year 2022, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System the employer shall pay an amount equal to the member contribution and the state contribution as an employment after retirement surcharge.

The following table shows contribution rates by type of contributor for the fiscal years 2022 and 2023.

<u>Contribution Rates</u>		
	<u>2022</u>	<u>2023</u>
Member	8.00%	8.00%

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

Net Pension Liability

Components of the net pension liability of the plan as of August 31, 2022 are disclosed below: (From TRS Annual Comprehensive Financial Report 2022, p. 86.)

Table 11.E.1: Net Pension Liability	
Components of Liability	Amount

Actuarial Assumptions.

Roll Forward- The actuarial valuation was performed as of August 31, 2021. Update procedures were used to roll forward the total pension liability to August 31, 2022.

The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board of Trustees based upon analysis and recommendations by the System's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the four-year period ending August 31, 2021 and were adopted in July 2022.

The post-retirement mortality rates were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables with full generational projection using the ultimate improvement rates from the most recently published projection scale ("U-MP"). The active mortality rates were based on the published PUB(2010) Mortality Tables for teachers, below median, also with full generational mortality.

The long-term expected rate of return on pension plan investments is 7.00 percent. The long-term expected rate of return on plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The following table discloses the assumptions that were applied to this measurement period. (From TRS Annual Comprehensive Financial Report 2022, p. 87.)

Component	Result
Valuation Date	August 31, 2021 rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-term Expected Rate	7.00%
Municipal Bond Rate as of August 2022	3.91% - The source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index"
Last year ending August 31 in Projection	
Period (100 years)	2121
Inflation	2.30%
Salary Increases	2.95% to 8.95% including inflation
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2021. For a full description of these assumptions please see the TRS actuarial valuation report dated November 12, 2021.

Discount Rate. A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 legislative session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2022, are presented in the following table from the TRS Annual Comprehensive Financial Report for 2022, p. 54.

Discount Rate Sensitivity Analysis. The following table presents the District's net pension liability of the plan using the discount rate of 7.00 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate.

	1% Decrease in Discount Rate (6.00%)	Current Single Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)
District's proportionate share of the net pension liability:	\$ 29,444,836	\$ 18,928,030	\$ 10,403,664

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2023, MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT reported a liability of \$18,928,030 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT.

The amount recognized by MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT were as follows:

District's Proportionate share of the collective net pension liability	\$ 18,298,030
State's proportionate share that is associated with the District	<u>24,495,214</u>
Total	<u>\$42,793,244</u>

The net pension liability was measured as of August 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2021 rolled forward to August 31, 2022. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2021 through August 31, 2022.

At August 31, 2022 the employer's proportion of the collective net pension liability was .0003188% which was an increase of 7% from its proportion measured as of August 31, 2021.

Changes In Actuarial Assumptions Since the Prior Actuarial Valuation – There were no changes in assumptions since the prior measurement date.

Changes in Benefits - There were no changes in benefits.

For the year ended August 31, 2023, MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT recognized pension expense of \$2,589,460 and revenue of \$1,925,330 for support provided by the State in the Government Wide Statement of Activities.

At August 31, 2023, MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experience	\$ 274,455	\$ 412,667
Changes in actuarial assumptions	3,526,908	879,004
Net Difference between projected and actual investment earnings	1,870,028	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	996,669	451,855
Contributions paid to TRS subsequent to the measurement date [to be calculated by employer]	1,972,466	-
Total	\$ 8,640,526	\$ 1,743,556

The net amounts of the employer's balances of deferred outflows and inflows (not including the deferred contribution paid subsequent to the measurement date) of resources related to pensions will be recognized by the district in pension expense as follows:

Year ended August 31:	Pension Expense Amount
2024	\$ 1,290,385
2025	698,578
2026	236,957
2027	2,292,724
2028	405,860

K. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

Plan Description. The MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined other post-employment benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052.

OPEB Plan Fiduciary Net Position. Detailed information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Components of the net OPEB liability of the TRS-Care plan as of August 31, 2022 as presented in the TRS 2022 ACFR (p. 76) are as follows:

Table 9.E.1: Net OPEB Liability	
Components of Liability	Amount
Total OPEB Liability	\$27,061,942,520
Less: Plan Fiduciary Net Position	(3,117,937,218)
Net OPEB Liability	\$23,944,005,302
Net Position as a Percentage of Total	
OPEB Liability	11.52%

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers, and other educational districts who are members of the TRS pension system. Eligible non-Medicare retirees and their dependents may pay premiums to participate in the high-deductible health plans. Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system.

The General Appropriations Act passed by the 86th Legislature included funding to maintain TRS Care premiums at their current level through 2021. The 86th Legislature also passed SB 1682 which requires TRS to establish a contingency reserve in the TRS-Care fund equal to 60 days of expenditures. This amount is estimated at \$271,311,000 as of August 31, 2021. The premium rates for retirees are presented in the following table:

	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

The Average Expected Remaining Service Life (AERSL) of 9.2179 years is based on the membership information as of the beginning of the fiscal year.

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and participating employers based on active employee compensation. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

At the inception of the plan, funding was projected to last 10 years through fiscal year 1995. The original funding was sufficient to maintain the solvency of the fund through fiscal year 2000. Since that time, appropriations and contributions have been established to fund the benefits for each successive biennium.

Texas Insurance Code, Section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of salary. Section 1575.204 establishes a public school contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act which is 0.75% of each active employee's pay for fiscal year 2021. The following table shows contributions to the TRS-Care plan by type of contributor.

	<u>Contribution Rates</u>	
	<u>2022</u>	<u>2023</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding Remitted by Employers	1.25%	1.25%
District's 2023 FY Employer Contributions		\$ 289,754
District's 2023 FY Member Contributions		\$ 251,122
Measurement Year NECE On-Behalf Contributions		\$ 446,542

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

A supplemental appropriation was authorized by Senate Bill 8 of the third-called legislature that granted \$83 million to TRS-Care from the federal American Rescue Plan Act (ARPA) to help defray Covid-19 related health care costs during fiscal year 2022.

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2021. Update procedures were used to roll forward the total OPEB liability to August 31, 2022.

In addition to the demographic assumptions: salary increases and inflation rates used for members of TRS are identical to the assumptions employed in the August 31, 2022 annual pension actuarial valuation.

The rates of mortality, retirement, termination, and disability incidence are identical to the assumptions used to value the pension liability of the Teacher Retirement System of Texas (TRS). The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2018.

Election Rates for Normal retirement - 65 percent participation rate prior to age 65 and 40 percent participation rate after age 65. Election Rates for pre-65 Retirees - 25 percent are assumed to discontinue coverage at age 65.

Table 9.F.1: Actuarial Methods and Assumptions

Component	Result
Valuation Date	August 31, 2021 rolled forward to August 31, 2022
Actuarial Cost Method	Individual Entry-Age Normal
Inflation	2.30%
Single Discount Rate	3.91% as of August 31, 2022
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	3.05% to 9.05%, including inflation
Ad Hoc Post-Employment Benefit Changes	None

The initial medical trend rates were 8.25 percent for Medicare retirees and 7.25 percent for non-Medicare retirees. There was an initial prescription drug trend rate of 8.25 percent for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25 percent over a period of 12 years.

Discount Rate. A single discount rate of 3.91 percent was used to measure the total OPEB liability. This was an increase of 1.96 percent in the discount rate since the previous year. The Discount Rate can be found in the 2022 TRS ACFR on page 77. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate.

Sensitivity of the Net OPEB Liability:

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.91%) in measuring the net OPEB liability.

	1% Decrease in Discount Rate (2.91%)	Current Single Discount Rate (3.91%)	1% Increase in Discount Rate (4.91%)
District's proportionate share of the Net OPEB Liability:	\$ 12,582,723	\$ 10,671,651	\$ 9,123,434

Healthcare Cost Trend Rates Sensitivity Analysis - The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
District's proportionate share of the Net OPEB Liability:	\$ 8,793,491	\$ 10,671,651	\$ 13,106,449

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2023, MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT reported a liability of \$10,671,651 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT were as follows:

District's Proportionate share of the collective net OPEB liability	\$ 10,671,651
State's proportionate share that is associated with the District	<u>13,017,737</u>
Total	<u>\$23,689,388</u>

The net OPEB liability was measured as of August 31, 2022 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2021 thru August 31, 2022.

At August 31, 2022 the employer's proportion of the collective net OPEB liability was 0.0004457% compared to the 0.0004426% as of August 31, 2021. This is an increase of 7%.

Changes in Actuarial Assumptions Since the Prior Actuarial Valuation – The discount rate changed from 1.95 percent as of August 31, 2021 to 3.91 percent as of August 31, 2022. This change decreased the total OPEB liability.

Changes in Benefit Terms: There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2023, MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT recognized OPEB expense of (\$1,290,754) and revenue of \$446,542 for support provided by the State.

At August 31, 2023, MOUNT PLEASANTINDEPENDENT SCHOOL DISTRICT reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experience	\$593,306	\$8,890,443
Changes in actuarial assumptions	1,625,504	7,414,028
Net Difference between projected and actual investment earnings	31,788	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	885,573	1,030,920
Contributions paid to TRS subsequent to the measurement date [to be calculated by employer]	289,754	-
Total	\$3,425,925	\$17,335,391

The net amounts of the employer's balances of deferred outflows and inflows (not including the deferred contribution paid subsequent to the measurement date) of resources related to OPEBs will be recognized by the district in OPEB expense as follows:

Year ended August 31:	OPEB Expense Amount
2024	\$ (2,575,656)
2025	(2,575,540)
2026	(2,122,995)
2027	(1,510,322)
2028	(1,785,504)
Thereafter	(3,629,203)

L. HEALTH CARE COVERAGE - RETIREES AND ACTIVE EMPLOYEES

Retiree Health Care Coverage

Plan Description. MOUNT PLEASANT INDEPENDENT SCHOOL DISTRICT participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit post-employment health care plan administered by the Teacher Retirement System of Texas. TRS-Care provides health care coverage for certain persons (and their dependents) who retire under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Texas Insurance Code Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by phoning the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet Website, www.trs.state.tx.us under the TRS Publications heading.

Funding Policy. Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The Contribution Rate for the State was 1.25% for 2021 2022 and 2023. The contribution rate for the district was 0.55% for each of these three years. The contribution rate for active employees was 0.65% of the district payroll for each of the three years. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. For staff members funded by federal problems, the federal programs are required to contribution 1.0 %.

Medicare Part D. The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal year ended August 31, 2022, 2021, and 2020 the subsidy payments received by TRS-Care on-behalf of the District were \$197,078, \$158,905 and \$160,926 respectively. The information for the year ended August 31, 2023 is an estimate provided by the Teacher Retirement System. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

Active Employee Health Care Coverage

Plan Description. The District participates in TRS Active Care sponsored by the Teacher Retirement System of Texas and administered through Aetna and Caremark (pharmacy). TRS-Active Care provides health care coverage to employees (and their dependents) of participating public education entities. Optional life and long-term care insurance are also provided to active members and retirees. Authority for the plan can be found in the Texas Insurance Code, Title 8, Subtitle H, Chapter 1579 and in the Texas Administrative Code, Title 34, Part 3, Chapter 41. The plan began operations on September 1, 2002. This is a premium-based plan. Payments are made on a monthly basis for all covered employees.

P. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2023, the district purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

Q. JOINT VENTURE-SHARED SERVICE ARRANGEMENTS

The District is a fiscal agent for a shared Services Arrangement (“SSA”) which provides special education member districts. All services are provided by the fiscal agent. The member districts provide the funds to the fiscal agent. According to guidance provided in TEA’s Resource Guide, the District has accounted for the fiscal agent’s activities of the SSA in Special Revenue Fund No. 437, Shared Services Arrangements - Special Education and will be accounted for using Model 3 in the SSA section of the Resource Guide.

Total Revenues from all member districts were: \$2,974,303

R. DEFERRED INFLOWS OF RESOURCES

In the government wide statements and the governmental fund financial statements the amount of property taxes receivable expected to be collected in the future is reflected as a deferred inflow of resources and will be recognized as such each year as it is collected.

S. COMMITMENTS AND CONTINGENCIES

The District has no significant commitments or contingencies at August 31, 2023.

T. LITIGATION

The District has no pending litigation at August 31, 2023.

U. SUBSEQUENT EVENTS

Administration has evaluated subsequent events through October 27, 2023 the financial statement issuance date.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2023

A. Notes to Schedules for the TRS Pension

Changes of Benefit terms.

There were no changes of benefit terms since the prior measurement date.

Changes of Assumptions.

There was a change in the actuarial assumptions. The primary change was the lowering of the single discount rate from 7.25 percent to 7.00 percent.

B. Notes to Schedules for the TRS OPEB Plan

Changes in Benefits.

There were no changes in benefits.

Changes in Assumptions.

The single discount rate changed from 1.95 percent as of August 31, 2021 to 3.91 percent as of August 31, 2022. This change decreased the total OPEB liability.

Lower participation rates and updates to health care trend rate assumptions were also factors that decreased the Total OPEB liability.

**REPORTS ON INTERNAL CONTROL,
COMPLIANCE, AND FEDERAL AWARDS**

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees
Mount Pleasant Independent School District
Mount Pleasant, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Mount Pleasant Independent School District, as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 27, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Trustees
Mount Pleasant Independent School District
Mount Pleasant, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Mount Pleasant Independent School District’s compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District’s major federal programs for the year ended August 31, 2023. The District’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District’s compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District’s federal programs.

Auditor’s Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District’s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District’s compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2023

- For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*.
 - **General Fund** - is used to account for, among other things, resources related to the United States Department of Defense ROTC program and the United States Department of Education's Impact Aid.
 - **Special Revenue Funds** - are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.
- The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund or, in some instances, in the General Fund which are Governmental Fund type funds.

With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned.
- The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Performance of Federal Funds, 3 CFR Section 200.343(b).
- Assistance Listing numbers for commodity assistance are the Assistance Listing numbers of the programs under which USDA donated the commodities.
- Indirect cost reimbursement for federal programs for this fiscal year was received in the amount of \$1,030,766
- The District did not elect to use the 10% de minimis indirect cost rate.
- Reconciliation Information:
