Purchase Order Process

A. Requisitions

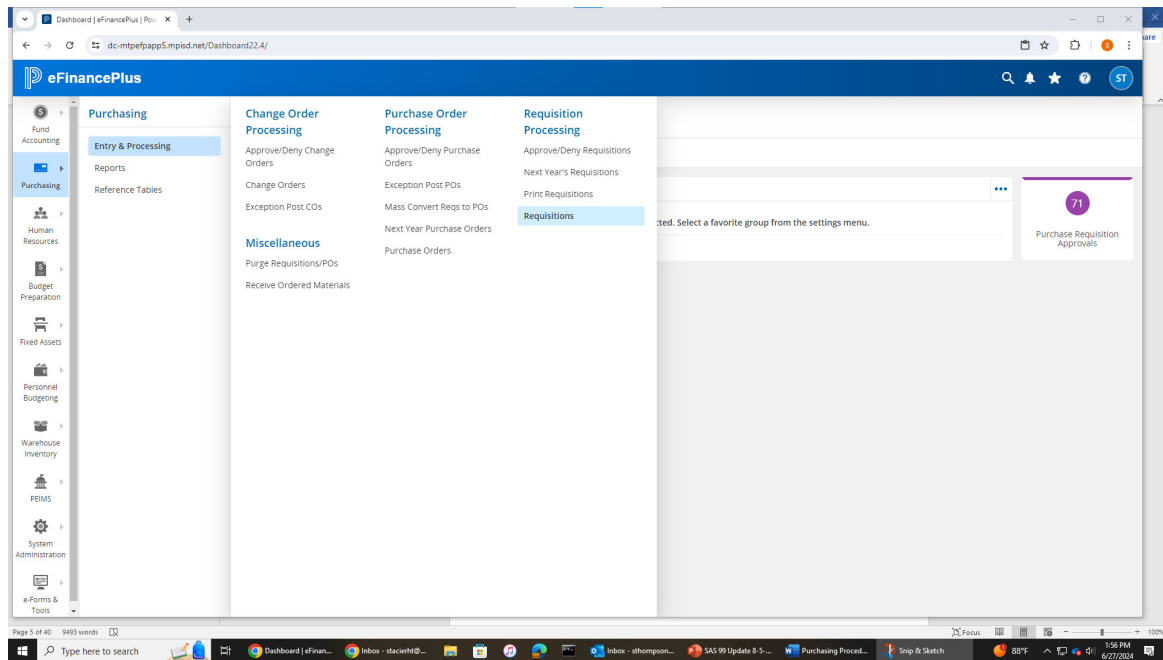

1. General Guidelines

- a. Acquisition of requested goods and services shall be made by the issuance of an official, pre-numbered, District purchase order.
- b. Any commitment to acquire goods or services from budgeted funds prior to securing a bona fide purchase order is prohibited. Anyone creating or authorizing such a commitment prior to securing a purchase order will be personally liable for payment of such agreement and/or may be liable to prosecution under the Texas Penal Code Chapter 39 Abuse of Office, Section 39.01.
- c. The necessity to plan for supply and service requirements cannot be overemphasized. The requisitions must travel from originator through approval channels to the Purchasing Coordinator. The Purchasing Coordinator then may be required to competitively procure the items. The time required for processing will vary from few days to a few months according to the nature and value of the transaction, the existing workload, and various legal requirements.

B. Requisition Process

1. Requests for purchases shall be submitted as a requisition through the PowerSchool software's online purchasing system. The steps to complete a requisition in PowerSchool follow.
2. All Finance PowerSchool users have a user identification (ID) and password. The Technology Director assigns these. It is the responsibility of the user to secure their ID & password and to alert the Technology Director immediately if that security has been breached. Each user is then assigned rights in the PowerSchool system by the CFO (Chief Financial Officer). These rights determine what the user can and cannot do or see in the software. Users who are allowed to input requisitions may complete the following steps:

In PowerSchool, choose Purchasing/Entry & Processing/Requisition Processing/Requisitions.

To input a new requisition, click + in the upper left-hand corner.

First screen: Requisition number is pre-entered. Choose the proper approval group for your campus/department. Input date required and vendor. Check Add Attachment to add documents to the requisition such as price quotes. Add notations regarding freight. Comments: Make a brief comment about the purchase. (Note: Only the first 20 characters of the comment are visible to the approver.) Buyer is the person inputting the requisition. Attention is to whom item or services will go to. - The bid committee is made up at a minimum of the Superintendent or designee, CFO, Purchasing Coordinator, and the head of the department concerned with the purchase.

- **Closing time for sealed bids is final.** Bids received after closing time will not be considered but will be returned, unopened to the vendor.
- After bids have been opened, they will be available to copy or study. They shall not be removed from the Purchasing Department.

vi. Award/Rejection

- The MPISD Board of Trustees may award/reject bids according to CH (Local).
- The Board reserves the right to reject any or all bids and to award bids to multiple vendors if such proves to be in the best interest of the District.
- If no acceptable bids are received, the proposed acquisition will be re-advertised seeking an acceptable bid if the District so desires.
- If the District receives two or more bids from responsible bidders that are identical in nature and amount as the lowest and best bids, it shall select only one bidder. If only one of the bidders is a resident of the District, that bidder shall be selected (CH Legal).
- Awarded vendor lists will be e-mailed to campuses/departments annually and will be available through the Purchasing Coordinator.

vii. Vendor Protests

- Make written request to the CFO.
- If the CFO denies the request, vendor may request to appeal the decision with the bid committee.
- If the request is further denied, the vendor may appeal the decision to the Board of Trustees. The matter shall be placed on the regular agenda for consideration as requested by the vendor.

2. Competitive sealed proposals: Allow modification and alteration of both content and price after offers are submitted and during the evaluation process. Used for services, construction, and when quantities and specifications are unknown.

3. Request for Proposals: Similar to competitive sealed proposals except the proposal is NOT sealed and negotiations may be begun upon receipt.

4. Interlocal Contracts (Purchasing Cooperatives): A district can contract with another local government or with the state or a state agency to purchase goods and any services. See Board Policy CH (Legal). Staff should consult with the MPISD Purchasing Coordinator to find out what cooperatives the District is a member of and the available vendors from that cooperative.

Control Environment

- A. Approvals:** It is the responsibility of the campus principals and department heads to review and approve requisitions before they are submitted to the centralized Purchasing Coordinator for processing. Approvals should not be designated to a secretary or other administrative assistant. The Superintendent or his designee will have **final approval** on purchase requisitions.
- B. Segregation of Duties:** The Purchasing Coordinator is independent of the shipping/receiving functions and of the accounts payable functions.
- C. Files and records:** The Purchasing Coordinator will maintain purchasing files and records for the period required by law.
- D. Gifts:** District employees shall not solicit, accept or agree to accept any gifts or benefits from a person conducting or intending to conduct business with the District.
- E. Vacation:** The Purchasing Coordinator is required to take vacations throughout the fiscal year. In her absence, the CFO or designee will handle her duties.
- F. Data Processing Security--** All Finance PowerSchool users have a user identification number (ID) and password. The Technology Director assigns these. It is the responsibility of the user to secure their ID & password and to alert the Technology Director immediately if that security has been breached. Each user is then assigned rights in the PowerSchool system by the CFO. These rights determine what the user can and cannot do or see in the software. Campus secretaries have the ability to input requisitions and run reports. Supervisors have approval abilities. Only the central Business Office has the ability to post purchase orders.
- G. Personal Purchases** —District employees shall not be permitted to purchase supplies or equipment for personal use through the District's business office (CH Local). District employees shall not be permitted to use the District's tax-exempt certificate to make personal purchases.
- H. Training**—Purchasing Coordinator and CFO will attend training annually.
- I. Arm's Length Transactions**--The purchase and sale transaction is an "Arm's Length Transaction," meaning that the transaction has been negotiated by unrelated parties, each of whom is acting in his or her own self-interest, and that the sale price is based on fair market value of the Property. Agents are acting in the best interests of their respective principal(s).

CONTRACT MANAGEMENT

Goal: To ensure a systematic process to review and approve contracts with vendors to include purchases, services, maintenance agreements, construction, and other contracts as appropriate.

- ❑ The Superintendent or designee has been designated by the Board of Trustees to approve and execute contracts for the purchase of goods or services for single purchases that are less than \$25,000.
- ❑ The Board of Trustees retains the authority to approve contracts for the purchase of goods or services for any single purchase that exceeds \$25,000.

Contract Review:

- ❑ The requestor [campus or department] shall forward the Contract document(s) to the Chief Financial Officer (CFO) for review. The CFO may send the proposed contract to the attorney for further evaluation.
 - Contracts may be vendor-originated, or
 - Mt. Pleasant ISD's Professional Services (Consultant) Contract
- ❑ The Contract Transmittal form shall be completed by the originator and attached to the Contract documents (see appendix).
- ❑ The Contract documents shall include the vendor/contractor's contract form or the Mt. Pleasant ISD Consultant Contract.
- ❑ If the proposed vendor is new to the district, a completed Mt. Pleasant ISD Vendor Application Packet shall be included with the contract documents. Vendor packets can be obtained from the Purchasing Coordinator, 903-434-8518.
- ❑ The CFO shall review the Contract.
 - If the contract will be funded with federal grant funds, the following provisions must be included in the contract [Per TEA's Guidance and Best Practices].
 - The contract is only effective upon receipt by the sub grantee of the NOGA from the awarding agency.
 - The contract period is aligned to the grant period of availability as stated on the NOGA from the awarding agency (period of availability).
 - All services will be completed during the effective dates of the contract.
 - All services will be invoiced monthly after services are received (rather than paid lump sum at the beginning of the period of availability before services are rendered) and paid upon verification of receipt of services.
 - The regulations for procurement in 2 CFR §§200.317-327 are followed in issuing the contract.
 - All professional services provided under the contract will follow the provisions of 2 CFR 200.459 Professional service costs.

- The contract identifies the funding sources that will be charged for the services provided, including the specific amount and/or percentage of the total contract amount to be charged to each funding source.
- The contract identifies and lists only reasonable, necessary, and allocable services to be provided during the period of availability of the funding sources listed in the contract.
- The administrative costs charged to the grant in the contract must comply with any limitations for administrative costs for funding sources (if applicable).
- The contract specifies that the invoice provided by the contractor will include the list of services provided, dates of services, and location(s) where services were provided during the billing period.
- If the contract will be funded with federal grant funds, the following provisions must be included in the contract [Per EDGAR Appendix II Part 200 Contract Provisions for Non-Federal Entity Contracts Under Federal Awards].
 - Contracts over \$150,000 must address administrative, contractual or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties.
 - Contract over \$10,000, must address termination for cause and for convenience by the District including the manner by which it will be affected and the basis for settlement.
 - Equal Employment Opportunity clause
 - Davis-Bacon Act clause for construction contracts, including compliance with prevailing wages. [The District must place a copy of the current prevailing wage determination used by the Department of Labor with each solicitation. Vendors will be required to furnish a current wage scale for comparison.]
 - Contract Work Hours and Safety Standards Act clause related to the computation of wages of every mechanic and laborer based on a standard workweek of 40 hours.
 - Rights to Inventions Made Under a Contract or Agreement clause if the federal award meets the definition of “funding agreement”
 - Clean Air Act and Federal Water Pollution Contract Act clauses if the contract is in excess of \$150,000
 - Debarment and Suspension clause, which prohibits awarding a contract to a contractor who has been debarred, suspended or otherwise, excluded from federal awards.
 - Byrd Anti-Lobbying Amendment clause, which applies to contractors, that apply or bid for an award exceeding \$100,000 who must file the required certification.
 - Procurement of recovered materials (200.322) clause
 - Purchases from the School Nutrition Fund must include the Buy American provision, which requires schools to purchase domestically grown and processed food to the maximum extent practicable. For a product to meet the Buy American requirement, over 51% of the final processed product must consist of agricultural

commodities that were grown domestically (sometimes, referred to as processed *substantially* using domestic agricultural commodities). Domestic products include items from the United States territories: Guam, American Samoa, Virgin Island, Puerto Rico, and the Northern Marian Islands. Purchases made in accordance with the Buy American provision must follow the applicable procurement regulations calling for full and open competition.⁴⁸ CEs must include this requirement in their contracts, requests for bids, and purchase orders with all potential contractors.

- Written verification that the entity does not discriminate against a firearm entity or trade association (SB 19) except for sole source providers or instances where no bids are from companies that cannot provide written verification.
 - Written verification, for contracts \$100,00 or greater, that the entity does not discriminate against energy companies (SB 13).
- ❑ If the Contract is recommended as is, the Contract will be forwarded to the Superintendent or designee and/or School Board (for contracts > \$25,000) for final review and approval.
 - ❑ If the Contract is not acceptable as is, the originator shall contact the contracting party to attempt to resolve the deficiency(ies).
 - Legal advice from the district's legal firm shall be obtained as necessary to remedy the contract deficiencies.
 - ❑ If the Contract is not acceptable and cannot be corrected to an acceptable form, the originator shall reject the contract and notify the proposed vendor.

Contract Letter of Intent [Per TEA's Guidance and Best Practices]:

- ❑ The Superintendent may execute a Letter of Intent with a third party (contractor) prior to a fiscal year or state/federal grant period only if the following provision is included in the Letter of Intent:

Contract Approval:

- ❑ The Superintendent or designee shall return the original, signed Contract to the CFO.
- ❑ If the contract also requires School Board approval, the originator shall prepare the School Board Action Item for approval at the next regularly scheduled board meeting. The Board Secretary shall return the original, signed Contract to the CFO.
- ❑ The contract originator (campus or department) shall verify that the contract document(s) have been executed and take the following steps:

- ❑ The originator shall submit a purchase requisition for the cost of the contract.
- ❑ Upon receipt of the purchase requisition, the CFO shall review and approve the requisition in accordance with the district's Purchasing Procedures.
- ❑ Upon approval of the purchase requisition, the originator shall forward a copy of the approved contract to the vendor and the Purchasing Coordinator shall forward a copy of purchase order to the vendor.

Contract Filing Procedures:

 - Purchasing Coordinator attaches the original contract to the approved Purchase Order and files
 - Accounts Payable Coordinator files a copy in the vendor file

Contract Management:

- ❑ The contract originator shall be directly responsible to ensure that the contracting party performs the services covered by the Contract. The contract originator shall sign the invoice to certify that the work was completed to satisfactory standards.
- ❑ Upon completion of the service(s), the vendor shall forward an invoice to the Accounts Payable Coordinator to request that payment be made to the contracting party.
- ❑ The Accounts Payable Coordinator shall make partial or final payments only upon receipt of an invoice signed by the originator. The signature of the originator is verification that the services have been performed and that the payment should be made to the contracting party.

Warehouse: Delivery, Receipt & Inventories

Mount Pleasant ISD maintains a central warehouse that serves two purposes:

1. Receive and distribute purchased items
2. Maintain & distribute the District's stock of inventory items

A. Receiving and distribution

1. Centralized receiving—MPISD utilizes centralized receiving to better facilitate control over purchases.

2. Receiving Procedures

a. The Warehouse receives a copy of the purchase order as notification of a pending delivery.

b. Upon delivery, Warehouse staff should:

- i. Compare the packing slip to the purchase order to be sure the shipment belongs to MPISD. If it does not, refuse shipment.
- ii. Ensure that the items on the packing slip match the items on the purchase order; accept the items ordered and have the Purchasing Coordinator contact the vendor for instructions for handling incorrect items.
- iii. Compare the number of containers delivered to the number on the carrier's packing slip. Record any discrepancy on the carrier's shipping documents.
- iv. Examine the outside of the containers for damage. Record any damage to the shipping containers on the carrier's shipping document and ensure that the delivery person signs it before the shipment is accepted. Recording damages to containers provides additional documentation in the event there is concealed damage.
- v. FOB destination—Items shipped to MPISD should be shipped FOB destination so that the vendor retains title and control of goods until they are delivered. The vendor selects the carrier and is responsible for the risk during transportation. This also allows MPISD to reject or accept all or part of the shipment. In the event any or all is rejected, the reason for rejection should be noted on the carrier's shipping documents and the vendor should be notified via the Purchasing Coordinator.
- vi. *If possible*, open the container(s) and compare the contents with the packing slip. If the warehouse staff are unable to open and compare, the receiving campus or department will open the container(s) and compare the contents with the packing slip. If the contents do not match, have the Purchasing Coordinator contact the vendor. If necessary, refuse shipment and note refusal on the carrier's shipping documents.
- vii. Finally, accept delivery by signing & dating the packing slip.

c. Receiving report

- i. Receiving reports for inventoriable items should be prepared by Warehouse staff and forwarded to Purchasing Coordinator for input into the PowerSchool Warehouse module.
- ii. Inspection: Receiving reports for other goods should be prepared and signed by the receiving campus/department. Receiving campus/department should:
 - Compare quantity received and quantity ordered
 - Compare shipment with physical description on the purchase order

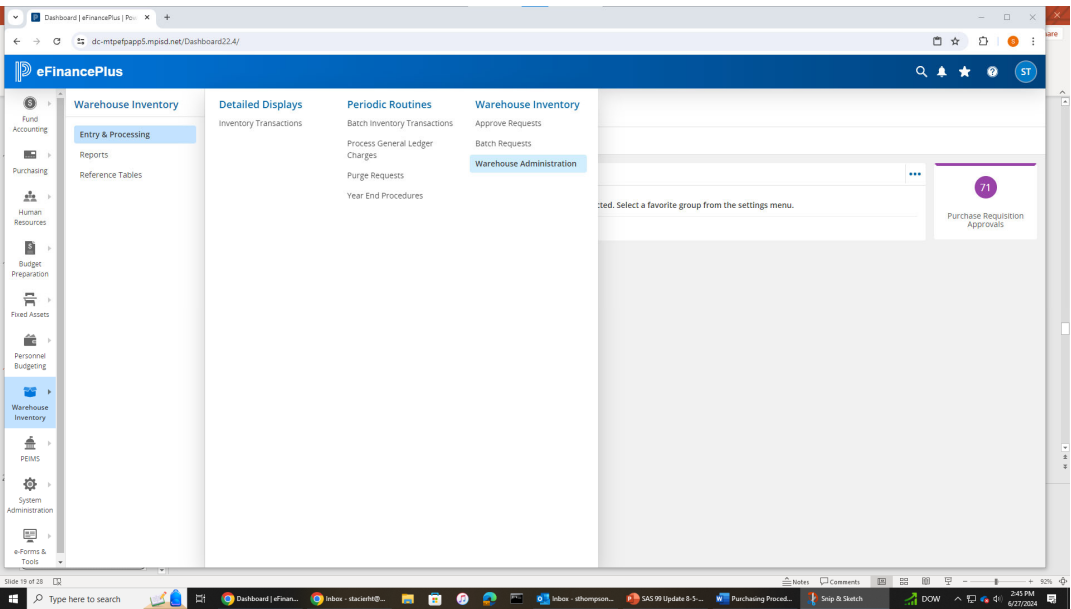

- Retain copies of shipping documentation
- iii. Invoice: Send signed copy of the invoice to Accounts Payable for processing only after inspection and completion of the order.
- d. Discrepancies
 - i. Vendor: Notify the vendor within 48 hours.
 - ii. Document: Note correspondence with vendor in writing and follow-up telephone notifications in writing.
 - iii. Purchasing: Contact the Purchasing Coordinator (903)434-8518 and send copies of correspondence to the Purchasing Coordinator.

B. Warehouse Inventory

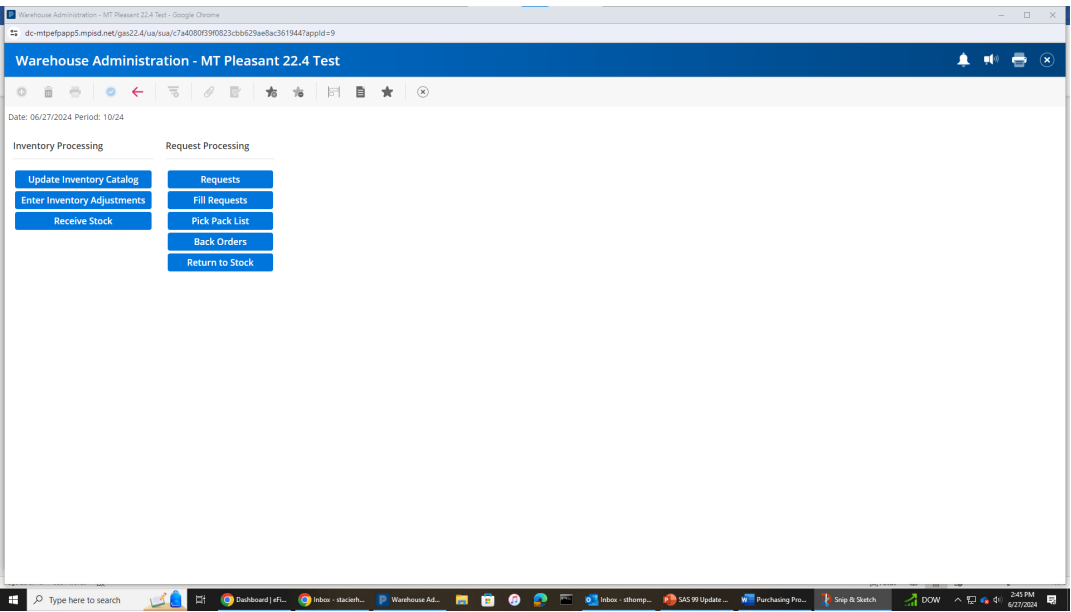

1. Warehouse Stock Items

- a. Purchasing:** Items for warehouse inventory will be purchased according to the MPISD Purchasing Procedures set forth in the Purchase Order Process discussed earlier in this text.

Since warehouse staff drives a District vehicle, they will also be randomly drug tested, obey traffic laws and will maintain a current driver's license.

e. Data Processing Security-- All Finance PowerSchool users have a user identification number (ID) and password. The Technology Director assigns these. It is the responsibility of the user to secure their ID & password and to alert the Technology Director immediately if that security has been breached. Each user is then assigned rights in the PowerSchool system by the CFO. These rights determine what the user can and cannot do or see in the software. The Warehouse Coordinator cannot receive stock or adjust inventory. The Accounts Payable Coordinator & Purchasing Coordinator cannot fill orders.
